

DYNAMIK

**For dynamic and eager to mate boars -
performing boars are half of the herd -**

Due to the use of DYNAMIK in addition to sow's lactation feed economic success is visible:

- Increased sperm performance up to 40 %.
- Vital and performing boars which can be used for an extended period of time.
- Targeted feeding: ideal supplementation of vitamins and amino acids.
- Measurable insemination success leading to more piglets per sow and year.

Boars are precious!

Their performance potential has to be fully utilized.

DYNAMIK supplies the essential amino acids and vitamins for boars which are dynamic and eager to mate.

Use:

Boar rearing:

50 g DYNAMIK per animal and day

Breeding boars:

100 g DYNAMIK per animal and day

Example for complete feed for boars:

75 % grains

18 % Soy 44

4 % Schaumalac ZL 60

3 % DYNAMIK

The boar is half of the herd – DYNAMIK improves the success.
