

KALBI-LYT PRO

Stops diarrhoea fast and effective

The special product for calf diarrhoea. For a fast energy and nutrient supply to get digestion going. KALBI-LYT contains vitamins and the gut stabilising probiotic **PROVITA LE**.

KALBI-LYT PRO a special product with electrolytes:

- electrolytes secure a fast regulation of the water household
- supplies buffer substances against blood acidosis
- strengthens the resistibility of the calf through a special vitamin and trace element combination
- decreases the ph-value of the electrolyte drink basis (water or tee) and therefore suppresses the reproduction of E. coli bacteria in the gut
- enhances a fast re-colonization of the cut with desired germs (lactic acid forming bacteria)
- supplies the calf with energy
- decreases the danger of flatulence

Application:

If digestion is disturbed suspend the milk feeding for one meal and offer the calf water and tee containing 50 g/l KALBI-LYT for free intake for the period of 1 to 2 days.

KALBI-LYT PRO

The rescue in cases of calf diarrhoea
